Reasons For Allowance

The following is an examiner's statement of reasons for allowance: Prior art of record i.e. Bennett et al (5,153,789) discloses a method/apparatus of transitioning from a seek control operation to a track following operation in a disc drive system comprising: comparing the data samples to the threshold; incrementing a consecutive counter if the sample is within the threshold; and determining if the current count of the consecutive counter is a first predetermined value. Prior art of record however fails to specifically disclose a capability of counting a number of non-consecutive groups of consecutive samples meeting a predetermined threshold requirement; and transitioning from a seek control operation to a track following control operation in response to determining that the count of the number of non-consecutive groups of consecutive samples meeting the predetermined threshold requirement meets the settle criteria, as specifically recited by the applicant in the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Varsha A Kapadia whose telephone number is (571) 272-7557.
